

**Provincial Chapter Direction
November 15, 2018**

We claim the gift that is ours to give in this time and place: to seek, contemplate and reveal Wisdom at the heart of the world, and in so doing, to denounce false wisdoms. (RL p. 11)

As Daughters of Wisdom, conscious of being members of an international congregation, we recommit ourselves to living the Way of Wisdom transmitted to us by our founders St. Louis de Montfort and Blessed Marie Louise of Jesus.

Responding to the call to “Love without Borders,”

We commit ourselves ...

1. To participate together in shaping the evolving reconfiguration of the congregation in accordance with our capabilities and possibilities.
2. To deepen our understanding of diverse cultures, faith traditions and racial divides and to engage with peoples of different cultures, faith traditions, and races.
3. To continue the endeavor of creating and supporting intercultural communities.
4. To broaden our sense of mission by addressing:
 - ❖ Global realities, especially care for our common home, Earth
 - ❖ New poverties, particularly the needs of immigrants
 - ❖ Needs of young people in their search for meaning and discerning God’s call

We affirm our commitment ...

1. To encourage and support the Associates of Wisdom in developing their unique role within the Wisdom Family.
2. To our sponsored ministry at Wisdom House as a center for the integration of Wisdom Spirituality, Justice, Care for Creation and to explore the possibility of a land conservation easement.
3. To support works and organizations that embody the mission and charism of the Daughters of Wisdom.

Faced with new poverties, let us seek, contemplate and reveal the many faces of Wisdom at work in the world.

Let us embark on the way of ongoing conversion, of inclusion, of daring and risk, loving with a heart without borders, open wide to Creation and our God.
